Department of Computer Sciences

Academic Year 2021

Instructor: Dr. Mohsin Raza Sahib

Assignment Number 02

Full Name: Muhammad

Father's Name: Abdul Rasheed

CMS Id: 391855

Subject: Fundamentals of Computer Programming

Section: 2021

Date of Submission: 19th, Dec

Student sign

Instructor sign

1. Write a program that does the following in order:
 1. Asks the user to enter his/her last name.
 2. Asks the user to enter his/her first name.
 3. Prints out the user's first and last names in that order.

```
1  #include<iostream>
2  using namespace std;
3  int main()
4  {
5      string lastName, firstName;
6      cout << "Please enter your last name: ";
7      cin >> lastName;
8      cout << "Please enter your first name: ";
9      cin >> firstName;
10     cout << "Full Name: " << firstName << " " << lastName << endl;
11     system("Pause");
12 }
```

C:\Users\Muhammad\OneDrive\Desktop\assignment2OfCs110,TaskNo.1\Debug\assignment2OfCs110,TaskNo.1.exe

```
Please enter your last name: Xamurani
Please enter your first name: Muhammad
Full Name: Muhammad Xamurani
Press any key to continue . . .
```

2. Write a program that computes and prints the 1000th prime number.

```
6  // TASK 2
7  int counter = 0, nums = 1;
8  cout << "First 1000 prime numbers are given below: \n";
9  while (counter < 1000)
10 {
11     nums++;          // each time check next number
12     // check each number for prime
13     bool p = true;
14     for (int i = 2; i <= nums / 2; i++) // 6/2 => 3
15     {
16         if (nums % i == 0)
17         {
18             p = false;
19             break;
20         }
21     }
22     if (p)
23     {
24         cout << nums << "\t";
25         counter++;    // increment counter on finding prime
26     }
27 }
28 cout << "\n\nThe 1000th prime number is " << nums;
```

And its output above.

3; Write a program that computes the sum of the logarithms of all the primes from 2 to some number n, and print out the sum of the logs of the primes, the number n, and the ratio of these two quantities. Test this for different values of n.

```
//TASK 3
28 int n;
29
30 cout << "Enter value of n: ";
31 cin >> n;
32 double logSum = 0;
33 for (int nums = 2; nums <= n; nums++) {
34     bool p = true;
35     for (int i = 2; i <= nums / 2; i++)
36     {
37         if (nums % i == 0)
38         {
39             p = false;
40             break;
41         }
42     }
43     if (p) {
44         logSum += log(nums);
45     }
46 }
47 cout << "Logarithmic Sum of Primes: " << logSum << endl;
48 cout << "Ratio: " << (logSum / n);
49
```
